OBJECTIVE

To pursue a job opportunity in a competitive environment that will challenge me to push my boundaries and expand my knowledge while allowing me to add value to the dynamics of the company.

PROJECTS

PLANT DISEASE DETECTION

The main objective is to identify the plant disease using image processing. It also identifies the insects, pests responsible for epidemic plant diseases.

CLINIC MANAGEMENT SYSTEM

This project refers to the process of organizing and supervising the various aspects of a medical clinic.

FARMER'S ASSISTANT

Developed a web platform to guide farmers on crop planting, fertilizers, disease diagnosis, and government policies. Implemented features for disease diagnosis via photos and integrated a marketplace for agricultural land transactions.
